Tracking your order

1. Go to "My Account" → "My Orders".
2. Select the order and click "Track Shipment".
3. You will see the courier name, the AWB (tracking) number and the latest status.

Tracking details are also sent by SMS and email within 12 hours of dispatch.

Late or delayed orders

- A delivery is considered late if it has not arrived 2 working days after the estimated delivery date.
- If your order is late, first check the tracking page for courier updates (weather, address issues or failed delivery attempts).
- If the order is still not delivered 2 working days after the estimated date, contact support with your order ID. We will raise a trace request with the courier, which takes up to 48 hours.
- If the courier confirms the parcel is lost, we will either re-ship the item free of charge with Express shipping or issue a full refund, whichever the customer prefers.
- For orders delayed more than 5 working days beyond the estimated date, the shipping fee paid is refunded automatically as a goodwill gesture.

Failed delivery attempts

- The courier makes 3 delivery attempts. After each failed attempt you receive an SMS with a link to reschedule.
- If all 3 attempts fail, the order is returned to our warehouse and a refund is issued within 7 working days of the item reaching us. The shipping fee is not refunded in this case.

Changing the delivery address

- The delivery address can be changed from "My Orders" only before the order is dispatched.
- After dispatch, the address cannot be changed. You may refuse delivery and place a new order.

Damaged or tampered packages

- Do not accept a package that looks opened, crushed or tampered with. Ask the delivery agent to return it.
- If you notice damage after accepting, report it within 48 hours of delivery with photos of the package and product (see the Refund and Returns Policy).

International shipping

ShopNest currently ships only within India. We do not ship to addresses outside India.
